Acadia Parish Police Jury
Acadia Parish Police Jury OHSEP
505 NE Court Circle, Crowley, Louisiana 70526
Attention: RFP Coordinator, Acadia Parish Police Jury

Re: Acadia Parish Police Jury Marine Debris Removal RFP

Dear Members of the Acadia Parish Police Jury and Selection Committee:

CrowderGulf is pleased to submit this proposal in response to the Acadia Parish Police Jury Marine Debris Removal RFP No. 26-02-05. We respectfully ask the Police Jury to consider this proposal as our firm and irrevocable offer to serve as Acadia Parish's disaster debris management contractor.

CrowderGulf is honored to currently serve as Acadia Parish's existing pre-event disaster debris management contractor (2023–2029). This longstanding relationship means CrowderGulf already understands the Parish's organizational structure, points of contact, and general operating expectations. This Marine Debris Removal proposal represents a natural and seamless extension of that existing partnership into the Parish's waterways, drainage districts, and bayous, allowing for immediate mobilization with no learning curve.

CrowderGulf is a national, full-service debris management firm with more than 55 years of experience in helping communities recover from disasters. Having managed successful debris clean-up operations in 16 states, **including Louisiana**, we have developed one of the most capable recovery management teams in the Country. Our disaster experience includes the completion of **more than 600 disaster recovery projects** and success in removing, reducing and disposing of **over 425 million cubic yards of debris**.

CrowderGulf understands the full scope of work requested by the Parish. This contract calls for the services of an experienced firm capable of efficiently removing, transporting, and disposing of vegetative and Construction & Demolition (C&D) debris from Acadia Parish's waterways using both water-based (barge) and land-based methods, in full conformity with FEMA guidelines and the U.S. Army Corps of Engineers permits governing this work. CrowderGulf is precisely that firm.

Our depth of experience in Louisiana lateral and waterway debris operations is unmatched. Our most directly relevant credential is the Calcasieu Parish Drainage Lateral Debris Removal project, which remains one of the largest waterway debris removal operations in recent history, with more than 2.25 million cubic yards collected. **This project gave our team operational fluency in exactly the type of work Acadia Parish requires** navigating limited land access along narrow drainage ditches and bayous, deploying specialized marine and amphibious equipment in low-lying, forested, and wetland-adjacent corridors typical of Acadia Parish's drainage districts, and producing the FEMA-compliant documentation necessary to protect every dollar of Parish reimbursement. CrowderGulf's regional southwest Louisiana subcontractor network and disposal facility relationships, built through the Calcasieu Parish project and other regional activations, give CrowderGulf a significant operational head start in mobilizing for Acadia Parish.

"One of CrowderGulf's most important attributes is their adherence to FEMA protocol. They exhibited a thorough understanding of FEMA regulations and procedures, consistently following protocol. As a result, we encountered no issues with FEMA reimbursement throughout our collaboration, which is a testament to the company's commitment to compliance and professionalism."

Nicholas E. Hunter

Mayor, City of Lake Charles, LA

CrowderGulf has operated continuously in Louisiana since Hurricane Katrina in 2005. We have managed more than \$500 million in FEMA-funded debris contracts in the state and responded to every major disaster declaration affecting southwest Louisiana in recent history, including Hurricane Laura, Hurricane Delta, Hurricane Ida, Hurricane Francine, and the 2016 flooding events. We know Louisiana's Department of Environmental Quality permitting environment, its approved disposal facilities, and the practical demands of rural waterway operations in the Sabine River Basin and surrounding parishes.

This proposal responds in full to every requirement in the RFP. The undersigned are authorized to bind CrowderGulf in all matters related to this solicitation. This proposal is submitted in good faith, without collusion or fraud.

Authorized Representatives:

Ashley Ramsay-Naile, **President** - CrowderGulf
5629 Commerce Blvd. E, Mobile, AL 36619
Office: 800-992-6207 | FAX: 251-459-7433
EMAIL: jramsay@crowdergulf.com
Cell: 646-872-1548

Reid Loper, **Senior Vice President** - CrowderGulf
Office: 800-992-6207 | FAX: 251-459-7433
EMAIL: rloper@crowdergulf.com
Cell: 678-477-3755

We greatly appreciate the opportunity to submit this proposal and look forward to partnering with Acadia Parish to provide disaster recovery services when needed.

Respectfully submitted,

A handwritten signature in blue ink that reads 'Ashley Ramsay-Naile'.

Ashley Ramsay-Naile
President, CrowderGulf

Administrative Acknowledgments

- **Term of Contract:** CrowderGulf acknowledges and accepts the Parish's intended one (1) year contract term, with an option for two (2) additional one (1) year renewals, per RFP Section 2.1.
- **Mandatory Pre-Bid Site Visit:** CrowderGulf acknowledges the Mandatory Pre-Bid Site Visit scheduled for June 11, 2026, at 10:00 AM, per RFP Section 2.3. CrowderGulf had multiple representatives present.
- **Submission Format:** CrowderGulf will submit six (6) hard copies and one (1) USB drive of this proposal, with one set bearing original signatures clearly marked "ORIGINAL," delivered to Acadia Parish Police Jury OHSEP, 505 NE Court Circle, Crowley, LA 70526, prior to the June 30, 2026, 12:00 PM CST deadline, per RFP Sections 4.1 and 5.1.
- **Project Title:** As required by RFP Section 5.1, and Addendum No. 1, all submittal documents bear the project title "Acadia Parish Police Jury Marine Debris Removal- RFP No. 26-02-05."

RFP 26-02-05 Marine Debris Removal

Section 4. Equipment and Subcontracting

Acadia Parish Police Jury, LA
RFP 26-02-05 Marine Debris Removal

Section 4: Equipment and Subcontracting

4.1 Partnership and Preparedness

CrowderGulf is committed to working collaboratively with the Parish's personnel to ensure seamless debris removal operations both on land and in waterways. Regardless of the project, our team will deliver:

- **Priority service** and expert on-site management
- **High-quality performance** backed by extensive resources, equipment, and manpower
- **Rapid mobilization** through a large equipment inventory and experienced subcontractor network
- **Flexible, scalable response** to meet unforeseen needs beyond the pre-event contract

CrowderGulf's depth of experience spanning over 55 years, financial strength, and operational capacity ensures we honor every commitment with speed, precision, and professionalism.

The scale of mobilization is determined by the severity of the event. CrowderGulf deploys a combination of internal crews and subcontractors, expanding the workforce as needed to meet operational demands. Assigned management personnel are detailed in previous sections of this proposal.

Company-Owned and Leased Equipment

CrowderGulf maintains a substantial inventory of waterway debris-specific equipment, ready for immediate deployment. In addition, CrowderGulf maintains active accounts with major national rental companies (e.g., Beard, Hertz, Caterpillar, John Deere, United Rentals, Sunbelt) to supplement equipment as needed. All equipment complies with federal, state, and local regulations.

4.2 Partial CrowderGulf-Owned Equipment Inventory

4.3 Subcontractor Equipment and Support

CrowderGulf maintains a nationwide database of vetted subcontractors and vendors. In compliance with 44 CFR 206.10, we will work with the client to identify and onboard local subcontractors. We prioritize using local resources and strive to include Minority Business Enterprises (MBEs) when possible.

In past activations, subcontractors have been pre-positioned with equipment for immediate response. A summary of available subcontractor resources specific to Louisiana is provided below, and more information about CrowderGulf's subcontracting processes and policies are provided in the next section.

FEDERAL CONTRACT COMPLIANCE (FEMA)

In the event performance of this Agreement will be funded in whole or in part by federal funds, the Contractor shall comply with the following provisions, as applicable:

[Federally Assisted Construction Contracts]

1. **Equal Employment Opportunity (41 C.F.R. Part 60)**. During the performance of this Agreement, the Contractor agrees as follows:

(a) The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity or national origin. The Contractor will take affirmative steps to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity or national origin. Such action shall include but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(b) The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity or national origin.

(c) The Contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the Contractor's legal duty to furnish information.

(d) The Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representative of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(e) The Contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(f) The Contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations and orders.

(g) In the event of the Contractor's noncompliance with the non-discrimination clauses of this contract or with any of the said rules, regulations or orders, this contract may be canceled, terminated, or suspended in whole or in part and the Contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such further sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(h) The Contractor will include the foregoing provisions in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The Contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance. Provided, however, that in the event a Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the Contractor may request the US to enter into such litigation to protect the interest of the US.

[Federally Assisted Construction Contracts in excess of \$2,000]

2. **Davis-Bacon Act (40 U.S.C. §§ 3141-3144 and 3146-3148).**

(a) All transactions regarding this agreement shall be in compliance with the Davis-Bacon Act (40 U.S.C. §§ 3141-3144 and 3146-3148) and the requirements of 29 C.F.R. Part 5 as may be applicable. The Contractor shall comply with the Davis-Bacon Act (40 U.S.C. §§ 3141-3144 and 3146-3148) and the requirements of 29 C.F.R. Part 5 as applicable.

(b) Contractors are required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination by the Secretary of Labor. Additionally, Contractors are required to pay wages not less than once per week.

[Federally Assisted Contract for Construction or Repair in excess of \$2,000]

3. **Copeland Anti-Kickback Act (40 U.S.C. § 3145).**

(a) Contractor shall comply with 18 U.S.C. § 874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. Part 3 as may be applicable, which are incorporated by reference into this Agreement.

(b) The Contractor or subcontractor(s) shall insert in any subcontracts the clause above and such other clauses as FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime Contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.

(c) A breach of the contract clauses above may be grounds for termination of the Agreement, and for debarment as provided in 29 C.F.R. § 5.12.

4. **Contract Work and Hours Safety Standards Act (40 U.S.C. §§ 3701-3708).**

(a) **Overtime Requirements.** No contractor or subcontractor contracting for any part of the contract work described herein which may require the employment of laborers or mechanics shall require or permit any such employee in any workweek in which he/she is employed to work in excess of forty hours in such workweek unless such employee receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(b) Violation; liability for unpaid wages; liquidated damages. In the event of a violation of this section, the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work performed under contract for the District of Columbia or a territory, to such District or territory), for liquidated damages. Such liquidated damages shall be computed with respect to each employee employed in violation of this section, in the sum of \$26 for each calendar day on which such employee was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by this section.

(c) Withholding for unpaid wages and liquidated damages. The state or county shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in this section.

(d) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in this section.

[Contracts awarded in excess of \$150,000 under a federal grant]

5. **Clean Air Act and Federal Water Pollution Control Act.**

(a) Clean Air Act (42 U.S.C. §§ 7401, et seq.). The Contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended. The Contractor agrees to report each violation to the County and understands and agrees that the County will, in turn, report each violation as required to assure notification to the FEMA, and the appropriate EPA Regional Office. The Contractor agrees to include these requirements in each subcontract exceeding \$150,000 financed in whole or in part with federal FEMA assistance.

(b) Federal Water Pollution Control Act (33 U.S.C. §§ 1251, et seq.). The Contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended. The Contractor agrees to report each violation to the County and understands and agrees that the County will, in turn, report each violation as required to assure notification to the FEMA, and the appropriate EPA Regional Office. The Contractor agrees to include these requirements in each subcontract exceeding \$150,000 financed in whole or in part with federal FEMA assistance.

6. **Debarment and Suspension.**

(a) In the event this Agreement is a "covered transaction" as defined in 2 C.F.R. Part. 180 and Part 3000, the contractor is required to verify that the contractor, its principals or affiliates, are not excluded (as defined in 2 C.F.R. § 180.940) or disqualified (as defined in 2 C.F.R. § 180.935).

(b) If applicable, the contractor must comply with 2 C.F.R. Part. 180, subpart C and 2 C.F.R. Part 3000, subpart C, and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(c) This certification is a material representation of fact relied upon by the state and county. If it is later determined that the contractor did not comply with 2 C.F.R. Part 180, subpart C and 2 C.F.R. Part 3000, subpart C, in addition to remedies available to the state and county, the federal government may pursue available remedies, including but not limited to suspension and/or debarment.

(d) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. Part 180, subpart C and 2 C.F.R. Part 3000, subpart C while any bid or proposal is valid and throughout the period of any Agreement that may arise therefrom. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

[Contract of \$100,000 or more under a federal grant]

7. **Byrd Anti-Lobbying Amendment (31 U.S.C. § 1352).**

Contractors who apply or bid for an award of \$100,000 or more shall file the required certification (APPENDIX A, 44 C.F.R. PART 18 - CERTIFICATION REGARDING LOBBYING). Each tier certifies to the tier above that it will not and has not use federal appropriated funds to pay any person or organization for influencing or attempting to influence an office or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-federal funds that takes place in connection with obtaining any federal award. Such disclosures are forwarded from tier to tier up to the recipient who in turn will forward the certifications to the awarding agency.

8. **Procurement of Recovered Materials.**

(a) In the performance of this Agreement, the Contractor shall make maximum use of products containing recovered materials that are EPA designated items unless the product cannot be acquired: competitively within a timeframe providing for compliance with the contract performance schedule; meeting contract performance requirements; or at a reasonable price. Information about this requirement, along with a list of EPA designated items, is available at EPA's Comprehensive Procurement Guidelines website, <https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program>

(b) The Contractor also agrees to comply with all other applicable requirements of Section 6002 of the Solid Waste Disposal Act.

9. **Procurement of Recovered Materials (2 C.F.R. § 200.323).** A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 C.F.R. Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired during the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

10. **Prohibition on Covered Telecommunications Equipment/Services (2 C.F.R. § 200.216).**

(a) Pursuant to Section 889, Public Law No.: 115-232 and 2 C.F.R. § 200.216, the recipient, its contractors and subcontractors may not use loan or grant funds from the federal awarding agency to: (1) procure or obtain any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology of a system; (2) enter, extend, or renew a contract to procure or obtain equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology of a system; (3) enter, extend or renew contracts with entities that use covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology of a system; or (4) provide, as part of its performance of contract, subcontract, or other contractual instrument, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology of a system.

(b) This provision shall not be construed to: (a) prohibit a contractor from providing a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or (b) cover telecommunications equipment that cannot route or redirect user data traffic or permit visibility into any user data or packets that such equipment transmits or otherwise handles. By necessary implication and regulation, the prohibitions also do not apply to: covered telecommunications equipment or services that are not used as a substantial or essential component of any system and are not used as critical technology of any system; or other telecommunications equipment or services that are not considered covered telecommunications equipment or services.

(c) As described in Section 889, Public Law No.: 115-232, "covered telecommunications equipment or services" means any of the following: (1) Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities); (2) For the purpose of public safety, security of government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities); (3) Telecommunications or video surveillance services provided by such entities or using such equipment; (4) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of the National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country; and (5) systems that use covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.

(d) If the contractor identifies covered telecommunications equipment or services used as a substantial or essential component of any system or as critical technology as part of any system, during the performance of the agreement, or contractor is notified of such by a subcontractor at any tier or by any other source, the contractor shall report the information to the FEMA funding recipient. The Contractor shall report the following information:

Within one business day from the date of such identification or notification: Contract Number; order number(s); supplier name; supplier unique entity identifier; supplier Commercial and Government Entity (CAGE) code; brand; model; model number; item description; and any readily available information about mitigation actions undertaken or recommended.

Within 10 business days of submitting the aforementioned information: Any further available information about mitigation actions undertaken or recommended. In addition, the contractor shall describe the efforts it undertook to prevent future use or submission of covered telecommunications equipment or services.

(e) The Contractor shall insert the substance of this section, including this paragraph (e) in all subcontracts and other contractual instruments.

11. **Domestic Preferences for Procurements (2 C.F.R. § 200.322)**. As appropriate and to the extent consistent with law, the non-Federal entity should, to the greatest extent practicable under a Federal award, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of this section must be included in all subawards including all contracts and purchase orders for work or products under this award. For purposes of this section: 1) "Produced in the United States" means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States; and 2) "Manufactured products" means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

12. **Buy America Preferences for Procurements (2 C.F.R. Part 184)**. The Buy America Preference applies to Federal awards where funds are appropriated or otherwise made available for infrastructure projects in the United States, regardless of whether infrastructure is the primary purpose of the Federal award. Contractors and their subcontractors who bid on a public infrastructure project subject to the domestic preference requirement of the Build America, Buy America Act (BABAA) shall file the required certification unless a domestic preference requirement has been waived by the awarding federal agency. Contractors and their subcontractors certify that no federal financial assistance funding for infrastructure projects will be provided unless all iron, steel, manufactured products and construction materials used in the project are produced in the United States. Contractors and subcontractors shall also disclose any use of federal financial assistance for infrastructure projects that does not ensure compliance with the BABAA domestic preference requirements. Such disclosure shall be forwarded to the FEMA funding recipient who, in turn, will forward the disclosures to FEMA; subrecipients will forward disclosures to the pass-through entity, who will, in turn, forward the disclosures to FEMA.

13. **Access to Records.**

(a) The Contractor agrees to provide County, the Federal Emergency Management Agency Administrator, the Comptroller General of the US, or any other authorized representatives access to books, records, documents, and papers of the Contractor which are pertinent to this Agreement for the purpose of making audits, examinations, excerpts and transcriptions.

(b) The Contractor agrees to permit the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed. The Contractor agrees to provide the FEMA administrator or his authorized representatives access to construction or other work sites pertaining to the work being completed under the Agreement.

(c) In compliance with the Disaster Recovery Act of 2018, the County and Contractor acknowledge and agree that no language in this Agreement is intended to prohibit audits or internal reviews by the FEMA Administrator or Comptroller General of the US.

14. **DHS Seal, Logo, and Flag.** The Contractor shall not use the Department of Homeland Security (DHS) seal(s), logos, crests, or reproductions of the flags or any likeness of DHS agency officials without prior FEMA approval.

15. **Compliance with Federal Law, Regulations, and Executive Orders.** Contractor hereby acknowledges that all or a portion of this Agreement may be funded by Federal Emergency Management Agency (FEMA) financial assistance. Contractor shall comply with all applicable Federal laws, regulations, executive orders, and FEMA policies, procedures and directives.

16. **No Obligation.** The Federal Government is not a party to this Agreement and is not subject to any obligations or liabilities to the County, Contractor, or any other party pertaining to any matter arising out of this Agreement.

17. **Program Fraud and False or Fraudulent Statements or Related Acts.** Contractor acknowledges that 31 U.S.C. Chapter 38 (Administrative Remedies for False Claims and Statements) applies to its actions pertaining to this Agreement.

18. **Rights to Inventions.** If the federal award meets the definition of a "funding agreement" under 37 C.F.R. § 401.2(a) and the recipient wishes to enter into contract with a small business firm or non-profit organization regarding the substitution of parties, assignment, or performance of experimental, developmental, or research work under the "funding agreement," the recipient must comply with the requirements of 37 C.F.R. Part 401 and any implementing regulations issued by FEMA.

19. **Copyright and Data Rights.** Contractor grants to the County a paid up, royalty free, nonexclusive, irrevocable, worldwide license in data first produced in the performance of this contract to reproduce, publish or otherwise use, including prepare derivative works, distribute copies to the public, and perform publicly and display publicly such data. For data required by the contract but not first produced in the performance of this contract, the Contractor will identify such data and grant to the County or acquire on its behalf a license of the same scope as for data first produced in the performance of this contract. Data, as used herein, shall include any work subject to copyright under 17 U.S.C. § 102, for example, any written reports or literary works, software or source code, music, choreography, pictures or images, graphics, sculptures, videos, motion pictures or other audio-visual works, sound or video recordings, or architectural works. Upon or before the completion of this contract, Contractor will deliver to the County data first produced in the performance of this contract and data required by this contract but not first produced in the performance of this contract in formats acceptable by the County.

ADDENDUM NO. 3

Request for Proposals (RFP)

Acadia Parish Police Jury-- Marine Debris Removal RFP

RFP No.: 26-02-05

ISSUE DATE OF ADDENDUM: June 23, 2026

Can you please confirm the location of the Mandatory Pre-Bid Site Visit scheduled for June 11, 2026, at 10:00 AM?

Response: The location was clarified in Addendum No. 1.

Can you please email me the bid documents for the Marine Debris Removal RFP?

Response: All bid documents are posted on Central Bidding and the Acadia Parish Police Jury website.

I wanted to ask if this RFP is for an existing need or is it for a pre-event contract?

Response: This is for current FEMA-funded hurricane debris waterway removal work.

1. For the debris points on the GIS-did Elos have an estimate of cubic yardage?

Response: No exact cubic yardage estimate is available.

2. Is this contract for current work, or a potential activation after a natural disaster/emergency?

Response: This contract is for current FEMA-funded hurricane waterway debris removal work.

3. I noticed there are no quantities- is there another formula, or how will the lowest bidder be determined?

Response: Proposals will be evaluated in accordance with the RFP criteria.

4. Judging from the maps, it appears that an overwhelming majority of this work would be land-based removal- would this be a correct assumption?

Response: Contractors should consider both land-based and water-based debris removal methods as necessary to perform the work in accordance with permit requirements and site conditions.

The abovementioned RFP states that there is a mandatory site visit on 6/11 at 10 AM, however, it does not list a location. Could you please provide the location so that we can meet this requirement?

Response: The location was clarified in Addendum No. 1.

After looking through the RFP, I noticed that there is not a location listed for the pre-bid meeting. Could y'all please provide the address we need to be at? Thank you!

Response: The location was clarified in Addendum No. 1.

1. Will there be more funding over the 2.8 million budget for this project

Response: The budget may be adjusted based on funding; however, a firm not-to-exceed amount will apply for each task order.

2. Is there a bid bond for this project

Response: Bidders shall submit a letter of bonding capability. The awarded contractor will be required to provide bonding for the amount allocated to each Task Order.

3. Do you have an approximated total on cubic yards of debris estimated for this project

Response: No exact cubic yardage estimate is available.

4. What is the total miles for this project

Response: Exact mileage is not available. The Parish will work with the awarded Contractor to identify areas which will make the most impact for the Parish Residents, based on budget and funding.

5. Are the Landfill tipping fees to be invoice separate with the proof of tickets are invoice from dump site

Response: Yes. Approved tipping fees are pass-through costs with no markup and require documentation.

6. Does the Acadia Parish Police Jury have a contract in place with any other contractor for any waterway debris removal service for the last 3 years

Response: This is a stand-alone contract for this hurricane waterway debris removal project.

7. Who is the monitor company that is overseeing this project

Response: Monitoring may be handled by the Parish's current pre-positioned monitoring contractor, Tetra Tech.

8. Will there be any grass seeding and hay needed at each location where damages are to be repaired on side slopes along waterways

Response: Any required restoration shall be completed in accordance with permit requirements and Parish direction. All sites will be returned to their pre-work condition so costs should be built into your bid pricing.

9. Where is the final disposal of reduce materials to be haul to

Response: The awarded contractor shall secure DMS and disposal sites subject to Parish approval and all applicable permit requirements.

10. What is the total working days to complete this project

Response: Completion requirements shall be as stated in the RFP and may be influenced by permit conditions and project priorities established by the Parish. The Parish will work with the awarded contractor to establish a reasonable timeline.

11. Page 8 all leaning trees of 30 degrees are to be cut down dead are alive along banks on just slopes sides only

Response: Eligible work shall be completed in accordance with the RFP, FEMA eligibility requirements, permit conditions, and Parish direction.

- Will renewals be executed at the consent of both parties?

Response: Yes, as allowed by the RFP and agreed to by both parties should a time renewal be necessary.

- Please explain specifically how the pricing of one proposal will be evaluated against the pricing from another proposal, including the answer to these questions:

Response: Pricing will be evaluated in accordance with the RFP criteria. The Parish will establish various pricing exercises/scenarios to determine the most price efficient contractor in conjunction with the other requirements as set forth in the RFP.

- o Will each pricing proposal be analyzed and refined to become one total number which can then be compared to the other proposals?

Response: Pricing will be evaluated in accordance with the RFP criteria. The Parish will establish various pricing exercises/scenarios to determine the most price efficient contractor in conjunction with the other requirements as set forth in the RFP.

- o Will some of the line item prices offered be excluded from the pricing evaluation? If so, which line items will be included, and which will be excluded?

Response: Pricing will be evaluated in accordance with the RFP criteria. The Parish will establish various pricing exercises/scenarios to determine the most price efficient contractor in conjunction with the other requirements as set forth in the RFP.

o Will extended totals (unit price multiplied by estimated quantity) be used to evaluate pricing, and if so, what estimated quantities and what line items will be used to derive the extended totals that will be evaluated?

Response: No exact quantities are available but the Parish may utilize different pricing scenarios to obtain pricing for all possible scenarios.

o Will all pricing line items be evaluated equally, or will some line items receive more importance in the evaluation?

Response: Pricing will be evaluated in accordance with the RFP criteria. The Parish will establish various pricing exercises/scenarios to determine the most price efficient contractor in conjunction with the other requirements as set forth in the RFP.

• Can you please provide the bid tabulations, awardees, and price evaluations from the previous bidding cycle?

Response: There was no previous bidding cycle for this stand-alone project.

How many miles of waterways are there?

Response: Exact mileage is not available.

How many miles are land-based and how many are water-based?

Response: Exact land-based and water-based mileage is not available.

Will debris cut in order to make access be billed at the yardage rate?

Response: Access requirements will vary by location. Any debris removal associated with access will be evaluated based on site conditions, eligibility requirements, and the approved scope of work.

If it is not billed at the yardage rate, then what is to be done with that debris?

Response: See above.

In the canals that are too shallow or too narrow for barges, are we approved to use amphibious excavators (marsh buggies)?

Response: Contractors may propose appropriate equipment, provided all work complies with applicable permits, site conditions, and Parish approval.

What is your budget?

Response: The current project budget is approximately \$2.8 million, but is subject to adjustment as the work requires to clear the Hurricane Debris.

What is the funding source?

Response: This is a FEMA-funded project with Parish cost share.

Is Rostan the monitoring firm for the project? If not, who is the monitoring firm?

Response: Monitoring may be handled by the Parish's Pre-positioned Monitoring Contractor, Tetra Tech.

1. Is a Louisiana contractor's license required in order to submit a bid/proposal for this RFP?

Response: Contractors are responsible for obtaining and maintaining all licenses and permits required to perform the work in the State of Louisiana.

2. What bonding is required for this RFP, including the required bid bond amount and any performance/payment bond requirements after award?

Response: Bidders shall submit a letter of bonding capability. The awarded contractor will be required to provide bonding for the amount allocated to each Task Order.

3. Have any addenda been issued during the RFP period? If so, please provide copies or direct us to where they can be accessed.

Response: Yes. Addenda are posted on Central Bidding and the Acadia Parish Police Jury website. There are currently two addenda: 1) Clarifies the Mandatory Site Visit Location; 2) Posting of the sign-in sheet for the Mandatory Site Visit.

Per Section 5.3 Required Submittals, please confirm whether Item #7 (Bonding Letter) is required to include a bid bond, or if a bonding letter alone satisfies this requirement.

Response: Item #7 requires that bidders submit a letter of bonding capability. The awarded contractor will be required to provide bonding for the amount allocated to each Task Order.

Are we to remove undamaged trees if they are obstructing the waterway?

Response: No. This project is for storm-damaged trees and debris. There will be a monitoring firm present for all work and eligibility compliance.

When the ditch is so narrow that you must use low impact land-based equipment from the top of bank, who will be responsible for ROEs?

Response: The awarded contractor shall obtain ROE's.

Are we being sent to each debris point? or are we to traverse the waterways with debris points in them, and remove all eligible debris?

Response: The awarded Contractor will be instructed and evaluated on completed sections of waterways. The goal is to maximize impact and eligible debris removal rather than perform point-to-point removal.

Pertaining to paragraph 1.3.8: Debris Classification:

1. One condition is “Has a diameter breast height of six inches or greater”--Does this mean all trees larger than 6 inches diameter breast height will be removed?

Response: No. This project is for removal of storm-damaged trees and eligible hurricane-related debris only. A monitoring firm will be present to document eligibility.

2. One condition is “Trees leaning at an angle of 30 degrees or greater and limbs hanging” — Are we to remove trees leaning at 30 degrees or greater regardless of the limbs? If not, what defines ‘limbs hanging’?

Response: Eligibility determinations will be made on a tree-by-tree basis by the Parish's debris monitoring firm. This project is for storm-damaged trees and debris only. A monitoring firm will be present for all work and eligibility compliance.

- 1)SoW only mentions grinding as reduction method for vegetative debris; is air curtain or open burning an allowed reduction method as well?

Response: For the purpose of this RFP, please bid the line item for reduction as specified in the RFP.

- 2) In addition to barges, are marsh buggies designed to create minimal ground pressure allowed to be used within the waterways?

Response: Contractors may propose appropriate equipment, provided all work complies with applicable permits, site conditions, and Parish approval.

- 3) What is the potential total linear feet/miles of waterways within the parish?

Response: At this time, there is no linear feet/miles available. After award of successful contractor, the Parish will work with awardee to maximize the impact for the community to alleviate health and safety concerns.

4) Are there any established pre-approved access/debris staging sites along the waterways?

Response: The awarded contractor shall secure DMS and disposal sites subject to Parish approval and all applicable permit requirements. There are access points identified in the permit documents, however, the awarded contractor will be responsible for ROE's as well as ensuring those are acceptable areas for use.

This Addendum forms part of the Contract Documents and modifies the original Request for Proposals (RFP) as described herein.

All other terms, conditions, and requirements of the original RFP remain unchanged.

Proposals shall continue to be submitted to:
Acadia Parish Police Jury Government, Acadia Parish Police Jury OHSEP
505 NE Court Circle Crowley, LA 70526

By order of Acadia Parish Police Jury.

This Addendum sheet should be signed and submitted with your bid submittal. This is the only acknowledgment required.
