June 11, 2026

Acadia Parish Policy Jury Government
Acadia Parish Policy Jury OHSEP
505 NE Court Circle
Crowley, LA 70526

Dear Evaluation Committee,

On behalf of JWTC-Louisiana, LLC. (JWTC), it is our privilege to submit this proposal in response to the Acadia Parish Police Jury's Request for Proposals for Disaster Debris Removal, Reduction and Disposal services. With more than four decades of experience in disaster recovery, construction, and federally funded programs, JWTC has a proven track record of managing large-scale operations, including high-volume debris removal, demolition, and site clearance projects throughout the Gulf Coast. Our team has delivered under FEMA, HUD CDBG, and CDBG-DR programs in both urban and rural environments, consistently meeting strict federal compliance standards while ensuring timely and efficient recovery for affected communities. This history of performance demonstrates our capacity to mobilize rapidly, manage complex operations, and coordinate effectively with local officials, subcontractors, and monitoring teams.

We understand that the Acadia Parish Policy Jury RFP for Marine Debris Removal requires strict adherence to FEMA eligibility, documentation, environmental compliance, and safety protocols. JWTC has developed detailed internal systems for load ticket management, debris classification, and daily reporting that align directly with these requirements, ensuring transparency and maximizing reimbursement eligibility for the Parish. Our management team is supported by a network of subcontractors, equipment providers, and skilled personnel, giving us the ability to scale operations quickly and sustain costs until reimbursement is secured. Our project management approach prioritizes:

- **Rapid Mobilization** - Pre-staged resources and a dedicated management team for immediate deployment and mobilization within 24 hours.
- **Regulatory Compliance** – Full adherence to FEMA, GOHSEP, OSHA, and environmental standards, with meticulous documentation to safeguard reimbursement eligibility.
- **Operational Efficiency** – Utilize skilled debris removal crews equipped with appropriate hauling machinery for different material types, supported by streamlined reporting systems to ensure daily performance tracking and effective coordination.
- **Community Respect** – "Clean as you go" operations, careful handling of public and private property, and clear communication with City representatives, the debris monitoring consultant and residents.
- **Commitment to Local Investment** - JWTC is committed to hiring and buying locally, with more than 95% of labor and material budgets spent in the communities we serve—building a proven track record as both job creators and trusted community partners.

At JWTC, we believe in more than operational readiness—we believe in partnership. We are committed to working alongside Acadia Parish's leadership, local communities, and the debris monitoring consultant to ensure that recovery operations are not only executed with efficiency, but also with respect for residents, public infrastructure, and the Parish's long-term resilience.

We welcome the opportunity to serve Acadia Parish and stand ready to deploy the full strength of our experience, equipment, and workforce to protect public health and safety and to expedite the Parish's recovery from this disaster. Thank you for considering JWTC. We look forward to the possibility of contributing our capabilities to the Acadia Parish's recovery and resilience efforts.

[redacted]

Executive Summary

Executive Summary

MORE THAN 44 YEARS OF RESTORING COMMUNITIES, ONE PROJECT AT A TIME

JWTC is proud to submit this proposal for the Acadia Parish Police Jury RFP for Marine Debris Removal. JWTC is uniquely qualified to support this program based on our longstanding philosophy of service, extensive program experience, proven capability, and a strong track record of customer satisfaction. Our competitive advantage is evident throughout this response and clearly demonstrates our capacity to fulfill all requirements outlined in the scope of work.

For more than 38 years, JWTC has specialized in disaster recovery and community restoration efforts using funding from FEMA, HUD CDBG, CDBG-DR, HRA, HOME, and other federal and local sources. We have successfully delivered large-scale demolition and debris removal services in both pre- and post-disaster settings, and we bring the management infrastructure, workforce capacity, and operational expertise needed to perform high-volume, high-quality disaster response services throughout Lousiana.

JWTC's experience spans an extensive portfolio of disaster-related recovery operations, including structural demolition, debris removal, site clearance, and emergency response activities following major hurricanes and flooding events. JWTC has been instrumental in clearing, preparing, and restoring hundreds of residential and community sites, enabling rapid and compliant recovery efforts across Lousiana. Our established operational presence in the region positions us to mobilize quickly and effectively.

Over the past 38 years, JWTC has supported more than 70 federally funded disaster programs across the U.S. mainland, the U.S. Virgin Islands, and Puerto Rico. We are well-versed in federal guidelines and funding compliance requirements, particularly under FEMA and HUD disaster response mandates. From Hurricanes Ike and Ike to Helene and Imelda, JWTC has played a central role in the logistical and field operations of some of the state's largest disaster recovery efforts.

Our leadership, under James W. "J.W." Turner, brings more than 44 years of experience in construction, demolition, and emergency response. Our team includes professionals with more than 800 years of combined experience in disaster recovery operations. We have built a reputation for providing efficient, compliant, and community-focused services – including the safe removal of debris, coordination of temporary staging areas, management of environmental concerns, and logistical support during times of crisis.

JWTC and our partners have substantial experience in disaster response services – including structural and site debris clearance, removal, TDMS management, emergency protective measures, and infrastructure clearance. We understand the critical importance of timely, safe, and compliant cleanup services in the wake of natural disasters.

We have previously worked within similar regulatory frameworks and are committed to aligning our work with all applicable local, regional, state, and federal requirements. This includes FEMA debris monitoring protocols, environmental permitting standards, and all codes relevant to disaster response and public safety.

[redacted]

In addition to core debris removal services, JWTC also provides a range of ancillary capabilities to support local recovery operations. As detailed in the following pages, these services include logistics coordination, environmental and hazardous materials management, temporary staging setup, and public safety assistance. We are confident that our team, experience, and approach will make a meaningful impact in Acadia Parish Police Jury's continued recovery and resilience-building efforts.

ANCILLARY SERVICES

- Tree Trimming
- Sand Screening
- DMS Management
- Asbestos Abatement
- Construction Services
- ROW and property restoration (grading, seeding, revegetation)

COMPANY PROFILE

JWTC was founded by James Turner, Member in 1982, and registered as a Limited Partnership in the State of Texas on July 12, 1995, with the primary focus of providing disaster response services and affordable construction services. We began operations in Louisiana in 2015. JWTC-Louisiana, LLC was formed as a Louisiana Limited Liability Company to assist with the devastating effects from the Baton Rouge Floods. JWTC is not a subsidiary of another company, in a joint venture or strategic alliance with any other company for this solicitation response to Acadia Parish's RFP. JWTC-Louisiana, LLC's DUNS number is 035695385, and our CAGE Code is 8QMC2.

JWTC is fully qualified and prepared to perform large-scale disaster recovery services in Louisiana, operating under Louisiana Residential License #883215 and Commercial Building Construction License #64036. JWTC will obtain all licenses, registrations, and permits required to perform work under any contract resulting from this solicitation. JWTC is an Equal Opportunity Employer and will fully adhere to all applicable local, state, and federal affirmative action requirements. Additional minimum requirements are addressed throughout this proposal, including our staging plan, previous performance, financial qualifications, and subcontractor plan.

JWTC and our experienced associates bring an extensive resume that includes land debris removal, marine debris removal, emergency road clearance, hazardous tree trimming and stump removal, sand screening, mulch haul-out, Debris Management Site (DMS) management and operations, demolition, material grinding, asbestos abatement, and household hazardous waste (HHW) removal. All work will be performed in compliance with FEMA, EPA, GOHSEP, US Coast Guard, and other applicable regulatory standards.

[redacted]

COMPANY OVERVIEW - EXPERIENCE AND CAPABILITY STATEMENT

Introduction

JWTC-Louisiana, LLC. (JWTC) is pleased to submit this bid for **Marine Debris Removal.** JWTC is proud to be celebrating its 44th year in business this year. During that time, JWTC has more than **38 years of debris removal, waterway operations, and disaster recovery experience**, JWTC understands the precision, environmental care, and documentation required to safely collect, remove, and haul debris in the aftermath of large storms. Our Louisiana office positions us to mobilize rapidly and support Acadia Parish with the personnel, equipment, and capabilities needed for this project.

JWTC has delivered **more than 70 FEMA, HUD, and other state and local government-funded programs** nationwide, including extensive work across **Louisiana and the Gulf Coast**. Our team specializes in **Debris Removal, Emergency Roadway Clearance, Right-of-Way Clearing & Tree Cutting, Debris Collection & Hauling using GPS-enabled load tracking and FEMA-compliant documentation, Temporary Debris Management Sites, Debris Reduction, and Haul-Out & Final Disposal**, ensuring all debris removal operations meet the requirements for federal reimbursement.

[redacted]

Core Capabilities:

- Vegetative and construction debris removal
- Hazardous tree and stump removal
- Load, haul, reduction, and final disposal operations
- GPS-enabled debris monitoring and FEMA PA documentation
- DMS setup, grinding, and staging support
- Logistics coordination and equipment deployment
- Waterway and navigable canal debris removal
- Canal bank protection and environmental compliance

Experience & Reach:

- Supported 70+ FEMA-, HUD-, and various state and local government-funded programs
- Extensive experience across the Gulf Coast, including coastal debris and waterway operations
- Multi-state operational history (LA, FL, AL, TX, PR, NC, MD, MS, SC, NY, NJ, GA, CA)
- Proven capability clearing right-of-ways, roads, and canal banks

Competitive Advantages:

- ***Lafayette-based rapid mobilization***
- Specialized equipment for debris removal
- Over 44 years of experience, including 38 in disaster, hurricane debris removal, and recovery experience
- Strong FEMA PA documentation & GPS load-tracking accuracy
- Ability to scale operations with surge personnel and equipment
- Strong network of local subcontractors

Resources & Expertise:

- Access to JWTC's fleet: excavators, loaders, skid steers, dump trucks, and amphibious equipment
- **Experienced FEMA documentation specialists and debris monitoring supervisors**
- Full project management, safety, environmental, and QC oversight staff
- 24/7 capability during emergency or accelerated timelines

Proven Performance:

- **Successfully completed major FEMA-funded debris operations ahead of schedule**
- Managed millions of cubic yards of debris across multiple states
- **Delivered 100% FEMA reimbursement approvals on numerous debris programs**
- Zero unresolved audit findings due to meticulous documentation standards
- Demonstrated ability to manage waterway and canal debris operations with environmental sensitivity

ORGANIZATIONAL STRUCTURE

[redacted]

Legal Structure:

JWTC-Louisiana, LLC is a Louisiana Limited Liability Company. It is a privately owned general contractor with centralized financial controls, enabling disciplined cash management, timely capital deployment, and direct accountability for all financial obligations under this contract.

INSURANCE AND BONDING STRENGTH & COMPLIANCE

JWTC maintains a comprehensive insurance program and exceptional bonding capacity that provide a high level of financial assurance, risk mitigation, and contractual reliability for Acadia Parish Police Jury. JWTC fully complies with all required insurance provisions, maintaining coverage that meets or exceeds contractual limits through carriers authorized in the State of Louisiana, with continuous coverage, strict notice provisions, and full subcontractor compliance. This disciplined approach ensures uninterrupted protection throughout the project lifecycle. In addition, JWTC's industry-leading bonding capacity—up to $1 billion—demonstrates the firm's financial stability, scalability, and capability to perform large-scale disaster recovery operations. JWTC is prepared to provide full performance and payment bonds for awarded work and can readily secure additional bonding instruments as needed, ensuring complete protection for the Parish, subcontractors, and all project stakeholders.

- **Insurance coverage that meets or exceeds all contract requirements, maintained continuously for full project duration**
- Policies issued by Louisiana-authorized, Parish-approved carriers
- Strict compliance with 30-day advance notice for any policy changes or cancellations
- Full subcontractor insurance compliance enforcement
- **Ability to provide performance and payment bonds equal to 100% of contract value**
- **Up to $1 billion bonding capacity, exceeding typical industry thresholds**
- Proven ability to scale bonding for large or concurrent disaster response projects
- Access to additional bonding instruments (bid, fidelity, blanket bonds) as needed

PROJECTS OF SIMILAR SIZE AND SCOPE

The JWTC team brings extensive experience and proven capability in disaster debris operations, fully aligning with the comprehensive requirements of the Acadia Parish Police Jury's contract. Our team is well-versed in FEMA's Public Assistance Program and Policy Guide (PAPPG) and all associated federal and state Disaster Specific Guidance, ensuring that all debris removal activities strictly adhere to the most current definitions of "Eligible" debris. JWTC's leadership and field personnel understand the importance of regulatory compliance, meticulous documentation, and real-time coordination with the Parish's Debris Manager to ensure every debris category meets FEMA eligibility standards throughout the duration of the project.

JWTC possesses the operational capacity to manage all phases of debris removal, including eligibility assessment, collection, loading, hauling, reduction, and final disposal at Parish-approved Debris Management Sites (DMS) or Final Disposal Sites (FDS). *Our team has successfully executed large-scale debris management operations that mirror the scope outlined by the Acadia Parish*—ranging from emergency road clearance and right-of-way vegetative and construction debris removal to hazardous stump extraction, white goods disposal, hazardous waste handling, and abandoned vehicle or vessel recovery. We also maintain the equipment, personnel, subcontractor networks, and logistical systems necessary to perform specialized services such as air-curtain incineration, controlled burning, grinding operations, compaction, waterway debris removal, canal and ditch silt extraction, and stormwater infrastructure cleaning.

EXHIBIT "B" COST PROPOSAL

ACADIA PARISH POLICE JURY GOVERNMENT

CONTRACT FOR EMERGENCY WATERWAY DEBRIS REMOVAL SERVICES

Name of Contractor JWTC-Louisiana, LLC.

Address of Contractor: 2014 W. Pinhook Rd City, State, Zip: Lafayette, LA 70508

Telephone Number: 281-290-9011 Authorized Signa[redacted]

Printed Name: James W. Turner Title: Member/Manager [redacted]

Date: 6/25/2026 Louisiana Contractor's License No. Residential #883215 & Commercial Building Construction #64036

Acknowledge Addenda Received: 6/25/2026

	Fee Schedule		
	Description	Unit	Unit Cost
	Acadia Parish Police Jury Waterway Debris Removal Services		
1A	Land-Based Vegetative Storm Debris Removal: Removal of vegetative storm debris from all Parish waterways assigned on a Task Order basis via land-based operations will be eligible under this pay item. The Contractor shall load, haul and dispose vegetative debris at the designated LDEQ approved vegetative disposal/processing site. Contractor shall perform all work in accordance with all Federal, State, and Local rules, regulations and laws and is responsible for thoroughly documenting the condition of the site prior to use. The Contractor shall load, haul and dispose vegetative debris at the designated LDEQ approved vegetative disposal/processing site only using land-based machinery. The Contractor will be held responsible for returning the site to its condition prior to use in connection with this storm event. Payment will be made on a cubic yard basis for actual volume of waste at the contracted unit rate in accordance with the fee schedule identified in the proposal. If debris is accessible by land, it shall be paid under this line item, even if removed via water-based machinery.		
		CY	$45.00
1B	Water-Based Vegetative Storm Debris Removal: Removal of vegetative storm debris from all Parish waterways assigned on a Task Order basis via water-based operations will be eligible under this pay item. Contractor shall perform all work in accordance with all Federal, State, and Local rules, regulations and laws. The Contractor shall load, haul and dispose vegetative debris at the designated LDEQ approved vegetative disposal/processing site. Contractor shall perform all work in accordance with all Federal, State, and Local rules, regulations and laws and is responsible for thoroughly documenting the condition of the site prior to use. The Contractor will be held responsible for returning the site to its condition prior to use in connection with this storm event. Payment will be made on a cubic yard basis for actual volume of waste at the contracted unit rate in accordance with the fee schedule identified in the proposal.		
		CY	$120.00

2A	Land-Based Construction and Demolition Storm Debris Removal: Removal of all construction and demolition storm debris from all designated waterways assigned on a Task Order basis via land-based operations will be eligible under this pay item. The Contractor will load, haul and dump this debris at a Contractor designated Type III landfill approved by LDEQ. Contractor shall perform all work in accordance with all Federal, State, and Local rules, regulations and laws and is responsible for thoroughly documenting the condition of the site prior to use. The Contractor will be held responsible for returning the site to its condition prior to use in connection with this storm event. Payment will be made on a cubic yard basis for actual volume of waste at the contracted unit rate in accordance with the fee schedule identified in the proposal. If debris is accessible by land, it shall be paid under this line item, even if removed via water-based machinery. The Contractor shall pass through all tipping fees to the Parish at actual cost, without markup or additional administrative charges.		
		CY	$45.00
2B	Water-Based Construction and Demolition Storm Debris Removal: Removal of all construction and demolition storm debris from all designated waterways assigned on a Task Order basis via water-based operations will be eligible under this pay item. The Contractor will load, haul and dump this debris at a Contractor designated Type III landfill approved by LDEQ. Contractor shall perform all work in accordance with all Federal, State, and Local rules, regulations and laws and is responsible for thoroughly documenting the condition of the site prior to use. Payment will be made on a cubic yard basis for actual volume of waste at the contracted unit rate in accordance with the fee schedule identified in the proposal. The Contractor shall pass through all tipping fees to the Parish at actual cost, without markup or additional administrative charges.		
		CY	$120.00
3	Management, Reduction (by Grinding), and Processing of all Vegetative Debris: Including preparing and layout of site; management, maintenance and operation of the disposal site; the receiving, sorting, and segregation of vegetative debris; furnishing materials, supplies, labor, tools and equipment necessary to perform services; maintenance of internal roadways, providing traffic control, dust control, drainage control, erosion control, inspection towers, lighting, all required permits, environmental monitoring, and safety measures; construction of internal roadways to access the site or facilitate flow of operations; and closure and remediation of the Acadia Parish Police Jury-owned disposal site. Vegetative debris must be continually reduced by chipping as delivered on-site.		
		CY	$5.50
4	Loading, Hauling, and Final Disposal of all Reduced Vegetative Debris: Line item includes the loading, hauling, and final disposal per LDEQ regulations of all reduced material described above in Line Item 2 to the Final Disposal Site.		
		CY	$7.50

Proposed Organizational Chart & Key Personnel

[redacted]

This chart represents the immediate project team for the Acadia Parish, Louisiana - Marine Debris Removal Project. **JWTC has 80+ full-time staff members who are available for this project**, as well as a team of *more than 600 vetted subcontractors who are available* to assist as the needs of the project dictate.

Project Team Experience and Available Equipment

- Team Capability Overview

PERSONNEL RESOURCES

JWTC operates under a clearly defined Incident Command System (ICS) that establishes direct lines of authority and ensures full accountability, safety, and coordination across all phases of debris removal and disposal operations. This structure allows for seamless integration between JWTC's executive oversight team, project management personnel, and field operations.

Project Controls and Management

- **Brian Benoit - Debris Removal Program Manager** Oversees the full lifecycle of Acadia Parish's debris management operations following disaster events, ensuring that all activities meet operational goals and remain fully compliant with FEMA reimbursement requirements.
- **Jason Cronin - Operations Manager** Develops and implements comprehensive debris removal strategies, including pre-event readiness, contractor mobilization plans, ensures that reliable backup communication systems are in place, operational sequencing, and resource allocation to ensure rapid and efficient post-disaster response. rapidly disseminating critical activation details to all operational teams to ensure coordinated, compliant deployment.
- **Patrick Haygood - Project Manager** Oversees daily field operations across all debris removal zones, ensuring production goals, safety standards, and operational timelines are consistently met. He directs crews and contractors, coordinates logistics and resource allocation, and ensures accurate reporting, documentation, and contract compliance. Patrick serves as the primary point of coordination for county officials, monitors performance, resolves operational issues, and ensures efficient, compliant, and timely execution of all project activities.

Field Leadership and Support

- **Jared Ruelas - TDSRS Site Supervisor** Oversees all operations at the Temporary Debris Staging and Reduction Sites, including site setup, debris processing, reduction activities, and environmental compliance. Responsible for coordinating with the Parish on approved TDSRS locations, conducting and documenting all required pre-operation environmental testing, and maintaining continuous photographic and video records of site conditions. Manages debris segregation, processing (grinding, reduction, or approved alternate methods), testing, and material designation for transport or disposal. Ensures compliance with all federal, state, and local regulations, including permitting, stormwater and erosion control, hazardous material handling, and safety standards. Directs site preparation, traffic flow, stabilized access, inspection tower setup, environmental controls, and required facilities. Oversees site closure and reclamation, ensuring full restoration to pre-use conditions and maintaining accountability for any environmental impacts.
- **Jim Lippman - Heavy Equipment Operations** Leads and supervises heavy equipment operations to safely and efficiently clear, load, and transport disaster debris. He selects appropriate machinery based on site-specific conditions and makes real-time operational adjustments to address changing terrain, debris types, access constraints, and environmental considerations, ensuring full compliance with safety standards and project timelines.
- **Zone Superintendents** provide direct oversight of contractor crews and coordinate with JWTC's monitoring and documentation personnel.

Safety and Compliance

- **Daniel Schenkel - Safety & Compliance Officer** Directs safety programs and field audits, ensuring full compliance with OSHA and USACE EM 385-1-1 standards. Supports implementation of JWTC's zero-incident safety culture and leads pre-mobilization safety orientation and daily inspections at all active sites.
- **Lindsey Baumgardner - FEMA Reimbursement Specialist** Ensures full compliance with FEMA Public Assistance eligibility requirements, State of Louisiana regulations, and Acadia Parish's contract standards. Manages and reviews all FEMA documentation—including eligibility reviews, supporting records, project worksheets, and reimbursement packages—ensuring submissions meet FEMA formatting and audit criteria. Oversees accurate cost tracking and verifies that all labor, equipment, haul tickets, monitoring logs, load tickets, and disposal records meet FEMA audit and documentation requirements.
- **Paul Bader - Quality Control Manager** Responsible for ensuring all debris removal, hauling, reduction, and site operations meet Acadia Parish's contract requirements and FEMA Public Assistance standards. Oversees field inspections, verifies accuracy of load tickets and documentation, and monitors contractor performance for compliance with safety, environmental, and operational specifications. Develops and implements quality control procedures, identifies deficiencies, and coordinates corrective actions with field supervisors and project management. Ensures consistent adherence to regulatory requirements and maintains detailed records to support audit-ready project files.

Project Team Experience and Available Equipment

- Resumes

Project Team Experience and Available Equipment

- Resources and Equipment

EQUIPMENT RESOURCES AND SURGE CAPACITY

JWTC maintains a large and diverse fleet of equipment capable of supporting every phase of debris removal and emergency recovery operations. This fleet includes excavators, wheel loaders, skid steers, dozers, haul trucks, dump trucks, cranes, grinders, saw teams, and support vehicles that allow crews to operate continuously and efficiently across multiple work sectors. JWTC also maintains specialized marine equipment, including barges, push boats, amphibious units, and marsh recovery assets, enabling the company to manage debris in waterways, drainage systems, canals, and coastal environments when required by the Parish.

The company's owned equipment inventory provides a strong foundation for immediate response, while JWTC's established rental network offers additional support during high-volume or extended-duration events. Our equipment list is included at the end of this section. Through long-standing relationships with major rental partners and regional suppliers, JWTC can access additional excavators, trucks, loaders, generators, light towers, and other units within hours of activation.

Equipment deployed to Acadia Parish is selected based on the operational needs of the specified working area. Large excavators and loaders are assigned to heavy vegetative and C&D removal, while skid steers, compact units, and specialized cutting equipment are used in areas with limited access. JWTC's resource model combines a dependable owned fleet with flexible surge support, giving Acadia Parish the assurance that all required services—including right-of-way debris removal, hazardous tree work, marine debris management, and debris staging—can be delivered without delay or interruption.

EQUIPMENT ASSIGNMENT, TRACKING, AND SECTOR DEPLOYMENT

JWTC assigns equipment to work sectors based on the debris type, access limitations, safety considerations, and operational priorities established by the Parish. As operational sectors are activated, *Patrick Haygood-Project Manager, Jim Lippman-Heavy Equipment Operations Lead* and *Bill Landry-Logistics and Equipment Supervisor* along with field supervisors evaluate the conditions of each zone to determine the appropriate equipment mix needed to maintain safe and productive operations. Large excavators, loaders, and haul trucks are assigned to high-volume removal areas, while skid steers, compact loaders, and support equipment are deployed in neighborhoods, cul-de-sacs, narrow roadways, and other areas with limited access.

Each field supervisor is responsible for managing the equipment assigned to their sector, including verifying that operators are qualified, confirming that machines are suited for the assigned tasks, and coordinating movement between collection points and haul routes. Supervisors work directly with the Jim and Bill to reassign or supplement equipment as debris volumes shift or as new priority areas are identified by the Parish. When specialty or technical equipment is needed, supplemental units available through partners can be incorporated without disrupting JWTC's core fleet assignments.

EQUIPMENT TRACKING AND UTILIZATION MONITORING

JWTC uses its Quickbase platform to maintain equipment logs, track utilization hours, document assignments, and record operational notes related to each unit. This system creates a centralized record of when equipment is deployed, how long it is operated, and which sector it is supporting. These logs help JWTC allocate equipment efficiently, maintain readiness for scheduled maintenance intervals, and support FEMA documentation requirements for equipment usage.

Equipment data recorded through Quickbase also supports operational review by allowing JWTC to identify when units should be rotated, reassigned, or serviced. This ensures that equipment remains productive and minimizes downtime across active work zones.

INTEGRATION WITH HAULING AND DEBRIS TRANSPORT

Supervisors coordinate equipment assignments with haul truck availability to maintain a continuous production cycle. They match haul trucks with the equipment loading debris in each sector and monitor load timing to avoid congestion at collection points or debris management sites. This ensures a steady workflow and maximizes daily output.

REAL-TIME ADJUSTMENTS TO SUPPORT ACADIA PARISH'S PRIORITIES

JWTC retains the flexibility to shift equipment quickly in response to the Parish's directives, emergency access needs, or new hazards identified during operations. If the Parish prioritizes clearing a school route, medical corridor, utility access line, or critical infrastructure area, equipment and personnel are reassigned immediately. Supervisors communicate changes in real time through Quickbase, allowing field teams to adjust haul routes, equipment mixes, or debris classifications without interrupting production. When conditions require rapid reinforcement–such as hazardous debris discoveries, utility conflicts, or unexpected congestion–additional specialty resources can be activated to support the adjustment. This responsive deployment model ensures JWTC's operations remain fully aligned with the Parish's public safety, utility restoration, and recovery objectives.

EQUIPMENT INSPECTION AND MAINTENANCE CONTROLS

JWTC integrates equipment safety into its compliance program through routine inspections and preventive maintenance. All heavy equipment, haul trucks, and support vehicles receive initial condition checks upon mobilization and periodic evaluations throughout the project to ensure safe operating condition.

Operators perform pre-use checks before entering a work zone. These checks cover critical safety elements such as fluid levels, tire condition, horns, lights, backup alarms, and overall mechanical readiness. These checks are practical, efficient, and ensure unsafe units are identified before being used.

To enhance safety and environmental protection, all heavy equipment and haul trucks are equipped with fire extinguishers and spill response kits. Spill kits include absorbent materials, socks, and disposal bags, allowing operators to immediately contain and clean minor hydraulic or fuel leaks. Fire extinguishers provide the ability to quickly address overheating incidents or small equipment fires. Together, these controls significantly reduce secondary hazards and protect both workers and the community.

JWTC conducts scheduled inspection intervals for high-hour equipment such as excavators, loaders, grinders, and haul trucks. These detailed inspections–performed by JWTC mechanics or qualified vendor partners–evaluate hydraulic systems, electrical components, braking systems, structural integrity, and other critical subsystems. Maintenance needs identified during these inspections are addressed promptly to prevent unsafe operation or unplanned failures.

For long-duration deployments, JWTC follows a preventive maintenance schedule that includes lubrication, filter changes, and component checks. When equipment cannot be repaired in the field, JWTC deploys replacement units immediately to maintain productivity and avoid unsafe conditions.

JWTC EQUIPMENT LISTING

JWTC commits to utilizing rubber-tracked loaders and low-impact equipment in residential areas and environmentally sensitive zones

JWTC maintains standing lease agreements and pre-qualified rental partnerships to supplement our owned fleet as operational demands require.

Our equipment listing includes the following items:

[redacted]

UNIFIED FIRST TIER PARTNER NETWORK

JWTC maintains a unified network of first-tier partners and regional subcontractors providing approximately 1,900 heavy units across the Gulf South, with over 800 units dedicated exclusively to this project. This integrated capability enables immediate surge response, sustained production, and full redundancy throughout all phases of debris management and disaster recovery operations.

FEDERAL CONTRACT COMPLIANCE (FEMA)

In the event performance of this Agreement will be funded in whole or in part by federal funds, the Contractor shall comply with the following provisions, as applicable:

[Federally Assisted Construction Contracts]

1. **Equal Employment Opportunity (41 C.F.R. Part 60).** During the performance of this Agreement, the Contractor agrees as follows:

(a) The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity or national origin. The Contractor will take affirmative steps to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity or national origin. Such action shall include but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(b) The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity or national origin.

(c) The Contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the Contractor's legal duty to furnish information.

(d) The Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representative of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(e) The Contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(f) The Contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations and orders.

(g) In the event of the Contractor's noncompliance with the non-discrimination clauses of this contract or with any of the said rules, regulations or orders, this contract may be canceled, terminated, or suspended in whole or in part and the Contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such further sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(h) The Contractor will include the foregoing provisions in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The Contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance. Provided, however, that in the event a Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the Contractor may request the US to enter into such litigation to protect the interest of the US.

[Federally Assisted Construction Contracts in excess of $2,000]

2. **Davis-Bacon Act (40 U.S.C. §§ 3141-3144 and 3146-3148).**

(a) All transactions regarding this agreement shall be in compliance with the Davis-Bacon Act (40 U.S.C. §§ 3141-3144 and 3146-3148) and the requirements of 29 C.F.R. Part 5 as may be applicable. The Contractor shall comply with the Davis-Bacon Act (40 U.S.C. §§ 3141-3144 and 3146-3148) and the requirements of 29 C.F.R. Part 5 as applicable.

(b) Contractors are required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination by the Secretary of Labor. Additionally, Contractors are required to pay wages not less than once per week.

[Federally Assisted Contract for Construction or Repair in excess of $2,000]

3. **Copeland Anti-Kickback Act (40 U.S.C. § 3145).**

(a) Contractor shall comply with 18 U.S.C. § 874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. Part 3 as may be applicable, which are incorporated by reference into this Agreement.

(b) The Contractor or subcontractor(s) shall insert in any subcontracts the clause above and such other clauses as FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime Contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.

(c) A breach of the contract clauses above may be grounds for termination of the Agreement, and for debarment as provided in 29 C.F.R. § 5.12.

4. **Contract Work and Hours Safety Standards Act (40 U.S.C. §§ 3701-3708).**

(a) Overtime Requirements. No contractor or subcontractor contracting for any part of the contract work described herein which may require the employment of laborers or mechanics shall require or permit any such employee in any workweek in which he/she is employed to work in excess of forty hours in such workweek unless such employee receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(b) Violation; liability for unpaid wages; liquidated damages. In the event of a violation of this section, the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work performed under contract for the District of Columbia or a territory, to such District or territory), for liquidated damages. Such liquidated damages shall be computed with respect to each employee employed in violation of this section, in the sum of $26 for each calendar day on which such employee was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by this section.

(c) Withholding for unpaid wages and liquidated damages. The state or county shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor , such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in this section.

(d) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in this section.

[Contracts awarded in excess of $150,000 under a federal grant]

5. **Clean Air Act and Federal Water Pollution Control Act.**

(a) Clean Air Act (42 U.S.C. §§ 7401, et seq.). The Contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended. The Contractor agrees to report each violation to the County and understands and agrees that the County will, in turn, report each violation as required to assure notification to the FEMA, and the appropriate EPA Regional Office. The Contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with federal FEMA assistance.

(b) Federal Water Pollution Control Act (33 U.S.C. §§ 1251, et seq.) The Contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended. The Contractor agrees to report each violation to the County and understands and agrees that the County will, in turn, report each violation as required to assure notification to the FEMA, and the appropriate EPA Regional Office. The Contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with federal FEMA assistance.

6. **Debarment and Suspension.**

(a) In the event this Agreement is a "covered transaction" as defined in 2 C.F.R. Part. 180 and Part 3000, the contractor is required to verify that the contractor, its principals or affiliates, are not excluded (as defined in 2 C.F.R. § 180.940) or disqualified (as defined in 2 C.F.R. § 180.935).

(b) If applicable, the contractor must comply with 2 C.F.R. Part. 180, subpart C and 2 C.F.R. Part 3000, subpart C, and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(c) This certification is a material representation of fact relied upon by the state and county. If it is later determined that the contractor did not comply with 2 C.F.R. Part 180, subpart C and 2 C.F.R. Part 3000, subpart C, in addition to remedies available to the state and county, the federal government may pursue available remedies, including but not limited to suspension and/or debarment.

(d) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. Part 180, subpart C and 2 C.F.R. Part 3000, subpart C while any bid or proposal is valid and throughout the period of any Agreement that may arise therefrom. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

[Contract of $100,000 or more under a federal grant]

7. **<u>Byrd Anti-Lobbying Amendment (31 U.S.C. § 1352)</u>.**

Contractors who apply or bid for an award of $100,000 or more shall file the required certification (**APPENDIX A, 44 C.F.R. PART 18 - CERTIFICATION REGARDING LOBBYING**). Each tier certifies to the tier above that it will not and has not use federal appropriated funds to pay any person or organization for influencing or attempting to influence an office or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-federal funds that takes place in connection with obtaining any federal award. Such disclosures are forwarded from tier to tier up to the recipient who in turn will forward the certifications to the awarding agency.

8. **<u>Procurement of Recovered Materials.</u>**

(a) In the performance of this Agreement, the Contractor shall make maximum use of products containing recovered materials that are EPA designated items unless the product cannot be acquired: competitively within a timeframe providing for compliance with the contract performance schedule; meeting contract performance requirements; or at a reasonable price. Information about this requirement, along with a list of EPA designated items, is available at EPA's Comprehensive Procurement Guidelines website, https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program

(b) The Contractor also agrees to comply with all other applicable requirements of Section 6002 of the Solid Waste Disposal Act.

9. **<u>Procurement of Recovered Materials (2 C.F.R. § 200.323)</u>**. A non–Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 C.F.R. Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

10. **<u>Prohibition on Covered Telecommunications Equipment/Services (2 C.F.R. § 200.216)</u>.**

(a) Pursuant to Section 889, Public Law No.: 115-232 and 2 C.F.R. § 200.216, the recipient, its contractors and subcontractors may not use loan or grant funds from the federal awarding agency to: (1) procure or obtain any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology of a system; (2) enter, extend, or renew a contract to procure or obtain equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology of a system; (3) enter, extend or renew contracts with entities that use covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology of a system; or (4) provide, as part of its performance of contract, subcontract, or other contractual instrument, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology of a system.

(b) This provision shall not be construed to: (a) prohibit a contractor from providing a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or (b) cover telecommunications equipment that cannot route or redirect user data traffic or permit visibility into any user data or packets that such equipment transmits or otherwise handles. By necessary implication and regulation, the prohibitions also do not apply to: covered telecommunications equipment or services that are not used as a substantial or essential component of any system and are not used as critical technology of any system; or other telecommunications equipment or services that are not considered covered telecommunications equipment or services.

(c) As described in Section 889, Public Law No.: 115-232, "covered telecommunications equipment or services" means any of the following: (1) Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities); (2) For the purpose of public safety, security of government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities); (3) Telecommunications or video surveillance services provided by such entities or using such equipment; (4) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of the National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country; and (5) systems that use covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.

(d) If the contractor identifies covered telecommunications equipment or services used as a substantial or essential component of any system or as critical technology as part of any system, during the performance of the agreement, or contractor is notified of such by a subcontractor at any tier or by any other source, the contractor shall report the information to the FEMA funding recipient. The Contractor shall report the following information:

Within one business day from the date of such identification or notification: Contract Number; order number(s); supplier name; supplier unique entity identifier; supplier Commercial and Government Entity (CAGE) code; brand; model; model number; item description; and any readily available information about mitigation actions undertaken or recommended.

Within 10 business days of submitting the aforementioned information: Any further available information about mitigation actions undertaken or recommended. In addition, the contractor shall describe the efforts it undertook to prevent future use or submission of covered telecommunications equipment or services.

(e) The Contractor shall insert the substance of this section, including this paragraph (e) in all subcontracts and other contractual instruments.

11. **Domestic Preferences for Procurements (2 C.F.R. § 200.322)**. As appropriate and to the extent consistent with law, the non–Federal entity should, to the greatest extent practicable under a Federal award, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of this section must be included in all subawards including all contracts and purchase orders for work or products under this award. For purposes of this section: 1) "Produced in the United States" means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States; and 2) "Manufactured products" means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

12. **Buy America Preferences for Procurements (2 C.F.R. Part 184)**. The Buy America Preference applies to Federal awards where funds are appropriated or otherwise made available for infrastructure projects in the United States, regardless of whether infrastructure is the primary purpose of the Federal award. Contractors and their subcontractors who bid on a public infrastructure project subject to the domestic preference requirement of the Build America, Buy America Act (BABAA) shall file the required certification unless a domestic preference requirement has been waived by the awarding federal agency. Contractors and their subcontractors certify that no federal financial assistance funding for infrastructure projects will be provided unless all iron, steel, manufactured products and construction materials used in the project are produced in the United States. Contractors and subcontractors shall also disclose any use of federal financial assistance for infrastructure projects that does not ensure compliance with the BABAA domestic preference requirements. Such disclosure shall be forwarded to the FEMA funding recipient who, in turn, will forward the disclosures to FEMA; subrecipients will forward disclosures to the pass-through entity, who will, in turn, forward the disclosures to FEMA.

13. **Access to Records.**

(a) The Contractor agrees to provide County, the Federal Emergency Management Agency Administrator, the Comptroller General of the US, or any other authorized representatives access to books, records, documents, and papers of the Contractor which are pertinent to this Agreement for the purpose of making audits, examinations, excerpts and transcriptions.

(b) The Contractor agrees to permit the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed. The Contractor agrees to provide the FEMA administrator or his authorized representatives access to construction or other work sites pertaining to the work being completed under the Agreement.

(c) In compliance with the Disaster Recovery Act of 2018, the County and Contractor acknowledge and agree that no language in this Agreement is intended to prohibit audits or internal reviews by the FEMA Administrator or Comptroller General of the US.

14. **DHS Seal, Logo, and Flag.** The Contractor shall not use the Department of Homeland Security (DHS) seal(s), logos, crests, or reproductions of the flags or any likeness of DHS agency officials without prior FEMA approval.

15. **Compliance with Federal Law, Regulations, and Executive Orders.** Contractor hereby acknowledges that all or a portion of this Agreement may be funded by Federal Emergency Management Agency (FEMA) financial assistance. Contractor shall comply with all applicable Federal laws, regulations, executive orders, and FEMA policies, procedures and directives.

16. **No Obligation.** The Federal Government is not a party to this Agreement and is not subject to any obligations or liabilities to the County, Contractor, or any other party pertaining to any matter arising out of this Agreement.

17. **Program Fraud and False or Fraudulent Statements or Related Acts.** Contractor acknowledges that 31 U.S.C. Chapter 38 (Administrative Remedies for False Claims and Statements) applies to its actions pertaining to this Agreement.

18. **Rights to Inventions**. If the federal award meets the definition of a "funding agreement" under 37 C.F.R. § 401.2(a) and the recipient wishes to enter into contract with a small business firm or non-profit organization regarding the substitution of parties, assignment, or performance of experimental, developmental, or research work under the "funding agreement," the recipient must comply with the requirements of 37 C.F.R. Part 401 and any implementing regulations issued by FEMA.

19. **Copyright and Data Rights**. Contractor grants to the County a paid up, royalty free, nonexclusive, irrevocable, worldwide license in data first produced in the performance of this contract to reproduce, publish or otherwise use, including prepare derivative works, distribute copies to the public, and perform publicly and display publicly such data. For data required by the contract but not first produced in the performance of this contract, the Contractor will identify such data and grant to the County or acquire on its behalf a license of the same scope as for data first produced in the performance of this contract. Data, as used herein, shall include any work subject to copyright under 17 U.S.C. § 102, for example, any written reports or literary works, software or source code, music, choreography, pictures or images, graphics, sculptures, videos, motion pictures or other audio-visual works, sound or video recordings, or architectural works. Upon or before the completion of this contract, Contractor will deliver to the County data first produced in the performance of this contract and data required by this contract but not first produced in the performance of this contract in formats acceptable by the County.

APPENDIX A, 44 C.F.R. PART 18 - CERTIFICATION REGARDING LOBBYING

The undersigned certifies, to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form–LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. § 1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The Contractor certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, Contractor understands and agrees that the provisions of 31 U.S.C. Chapter 38, Administrative Remedies for False Claims and Statements, [redacted] disclosure, if any.

CERTIFICATION REGARDING BUILD AMERICA, BUY AMERICA ACT

Pursuant to the provisions of the Build America, Buy America Act (BABAA) Public Law 117-58 and 2 C.F.R. Part 184, the undersigned certifies, to the best of his or her knowledge and belief, that:

The iron, steel, manufactured products, and construction materials incorporated into the infrastructure project in the performance of this contract are in full compliance with the requirements of the Build America, Buy America Act (BABAA), including the following:

(1) In the case of iron or steel products, all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.

(2) In the case of manufactured products:

(i) The product was manufactured in the United States; and

(ii) The cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard that meets or exceeds this standard has been established under applicable law or regulation for determining the minimum amount of domestic content of the manufactured product.

(3) In the case of construction materials, all manufacturing processes for the construction material occurred in the United States.

The undersigned contractor certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, undersigned contractor understands and agrees that the provisions of 31 U.S.C. Chapter 38, Administrative Remedies for False Claims [redacted] certification and disclosure, if any.

REQUIRED CONTRACT PROVISIONS FOR CONTRACTS FUNDED BY FEDERAL AWARDS (2 C.F.R. Part 200, Appendix II)

(A) Contracts for more than the simplified acquisition threshold must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms and provide for such sanctions and penalties as appropriate.

(B) Contracts in excess of $10,000 must address termination for cause and for convenience by the non–Federal entity including the manner by which it will be effected and the basis for settlement.

(C) Procurement Standards. Pursuant to 2 C.F.R. § 200.321, the non–Federal entity and each contractor awarding subcontracts must take all necessary *affirmative steps* to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible.

(D) Equal Employment Opportunity. Except as otherwise provided under 41 C.F.R. Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R. Part 60–1.3 must include the equal opportunity clause provided under 41 C.F.R. Part 60–1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 C.F.R. Part 1964–1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 C.F.R. Part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

(E) Davis–Bacon Act. When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non–Federal entities must include a provision for compliance with the Davis–Bacon Act (40 U.S.C. §§ 3141–3144 and 3146–3148) as supplemented by Department of Labor regulations (29 C.F.R. Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non–Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non–Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti–Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations (29 C.F.R. Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non–Federal entity must report all suspected or reported violations to the Federal awarding agency.

(F) Contract Work Hours and Safety Standards Act. Where applicable, all contracts awarded by the non–Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. § 3702 and 3704, as supplemented by Department of Labor regulations (29 C.F.R. Part 5). Under 40 U.S.C. § 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

(G) Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 C.F.R. § 401.2(a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 C.F.R. Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

(H) Clean Air Act and the Federal Water Pollution Control Act. Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non–Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. §§ 7401–7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. §§ 1251–1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

(I) Debarment and Suspension. A contract award (see 2 C.F.R. § 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 C.F.R. Part 180 that implement Executive Orders 12549 (3 C.F.R. Part 1986 Comp., p. 189) and 12689 (3 C.F.R. Part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

(J) Byrd Anti–Lobbying Amendment. Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. § 1352. Each tier must also disclose any lobbying with non–Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non–Federal award.

(K) Procurement of Recovered Materials (2 C.F.R. § 200.323). A non–Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 C.F.R. Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

(L) Prohibition on Covered Telecommunications Equipment/Services (2 C.F.R. § 200.216). Pursuant to Section 889, Public Law No.: 115-232 and 2 C.F.R. § 200.216, a non–Federal entity, its contractors and subcontractors shall not use loan or grant funds from the Federal awarding agency to: (1) procure or obtain covered telecommunications equipment or services; (2) extend or renew a contract to procure or obtain covered telecommunications equipment or services; or (3) enter into a contract (or extend or renew a contract) to procure or obtain covered telecommunications equipment or services. This provision shall not be construed to: (a) prohibit providing a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or (b) cover telecommunications equipment that cannot route or redirect user data traffic or permit visibility into any user data or packets that such equipment transmits or otherwise handles.

As described in Section 889, Public Law No.: 115-232, "covered telecommunications equipment or services" means any of the following: (1) Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities); (2) For the purpose of public safety, security of government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities); (3) Telecommunications or video surveillance services provided by such entities or using such equipment; (4) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of the National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country. For the purposes of this section, "covered telecommunications equipment or services" also include systems that use covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.

(M) Domestic Preferences for Procurements (2 C.F.R. § 200.322). As appropriate and to the extent consistent with law, the non–Federal entity should, to the greatest extent practicable under a Federal award, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of this section must be included in all subawards including all contracts and purchase orders for work or products under this award. For purposes of this section: 1) "Produced in the United States" means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States; and 2) "Manufactured products" means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

(N) Buy America Preference for Procurements (2 C.F.R. Part 184). The Buy America Preference applies to Federal awards where funds are appropriated or otherwise made available for infrastructure projects in the United States, regardless of whether infrastructure is the primary purpose of the Federal award. Contractors and their subcontractors who bid on a public infrastructure project subject to the domestic preference requirement of the Build America, Buy America Act (BABAA) shall file the required certification unless a domestic preference requirement has been waived by the awarding federal agency. Contractors and their subcontractors shall ensure that all construction materials used in the infrastructure project are "produced in the United States" in accordance with the requirements of the BABAA. Contractors and their subcontractors shall also disclose any use of federal financial assistance for infrastructure projects that is not in compliance with the BABAA domestic preference requirements.

OTHER REQUIRED CONTRACT PROVISIONS:

(A) Compliance with Federal Law, Regulations, and Executive Orders. All or a portion of this Agreement may be funded by federal financial assistance. Contractor shall comply with all applicable Federal laws, regulations, executive orders, policies, procedures and directives.

(B) No Obligation by Federal Government. The Federal Government is not a party to this Agreement and is not subject to any obligation or liability of any party to this Agreement or any other party pertaining to any matter related to this Agreement.

(C) Program Fraud and False or Fraudulent Statements or Related Acts. As applicable, the requirements of 31 U.S.C. Chapter 38 (Administrative Remedies for False Claims and Statements) shall apply to a Contractor's actions pertaining to the performance of this Agreement.

(D) E-Verify. Contractor shall register with and utilize the E-Verify System to verify the employment eligibility of individuals to work in the United States and 48 C.F.R. 52.222-54 is incorporated herein by reference. If applicable, in accordance with Subpart 22.18 of the Federal Acquisition Register, the Contractor must: (1) enroll in the E-Verify Program; (2) use E-Verify to verify the employment eligibility of all new hires working in the United States; (3) use E-Verify to verify the employment eligibility of all employees assigned to perform work pursuant to the Agreement; and (4) include these requirements in any related subcontracts. Information on the E-Verify Program: http://www.dhs.gov/E-Verify.

(E) Rights in Copyright and Data. Contractor shall:

a. Grant the Federal Government a royalty-free, nonexclusive and irrevocable right to:
  i. Reproduce, publish, or otherwise use for Federal purposes any work that is subject to copyright and that the contractor develops, or acquires ownership of, under this award;
  ii. Authorize others to reproduce, publish, or otherwise use such work for Federal purposes; and

b. Grant the Federal Government the right to:
  i. Obtain, reproduce, publish, or otherwise use data produced under this award; and
  ii. Authorize others to receive, reproduce, publish, or otherwise use such data for Federal purposes; and

c. Include the Federal Government rights described above in any subcontracts.

(F) Access to Records. For any contract in excess of the simplified acquisition threshold, Contractor shall provide access to any books, documents, papers, and records that are directly pertinent to the Agreement to enable and support audits, examinations, excerpts, and transcriptions. Contractor shall provide access to those records for all of the following:

i. The non-Federal award recipient;
ii. The Federal awarding agency, including its Inspector General; and
iii. The Comptroller General of the United States.

(G) Records Retention.

For contracts in excess of the simplified acquisition threshold, Contractor shall provide for retention of all [redacted]greement for 6 years after receiving final payment and all pending matters are closed.

OFFICIAL CONTACT. The Parish requests that the Proposer designate one person to receive all documents and the method in which the documents are best delivered. Identify the Contact name and fill in the information below:

Date 6/25/2026 Official Contact Name: James W. Turner

A. E-mail Address: info@jwtc.net/debrisremoval@jwtc.net

B. Facsimile Number with area code: (281) 290-9511

C. US Mail Address: 14215 Mary Jane Lane, Tomball, TX 77377

Proposer certifies that the above information is true and grants permission to the Parish or Agencies to contact the above-named person or otherwise verify the information provided.

By its submission of this proposal and authorized signature below, Proposer certifies that:

1. The information contained in its response to this RFQ/RFP is accurate;
2. Proposer complies with each of the mandatory requirements listed in the RFQ/RFP and will meet or exceed the functional and technical requirements specified therein;
3. Proposer accepts the procedures, evaluation criteria, mandatory contract terms and conditions, and all other administrative requirements set forth in this RFQ/RFP.
4. Proposer's quote is valid for at least 90 days from the date of proposal's signature below;
5. Proposer understands that if selected as the successful Proposer, he/she will have 30 business days from the date of delivery of final contract[redacted] negotiations, if any, and execute the final contract document.
